# FROM ELEGANCE TO WILD

Create different environments, from subdued and relaxed, to a fun party mode with creative RGB LED lighting

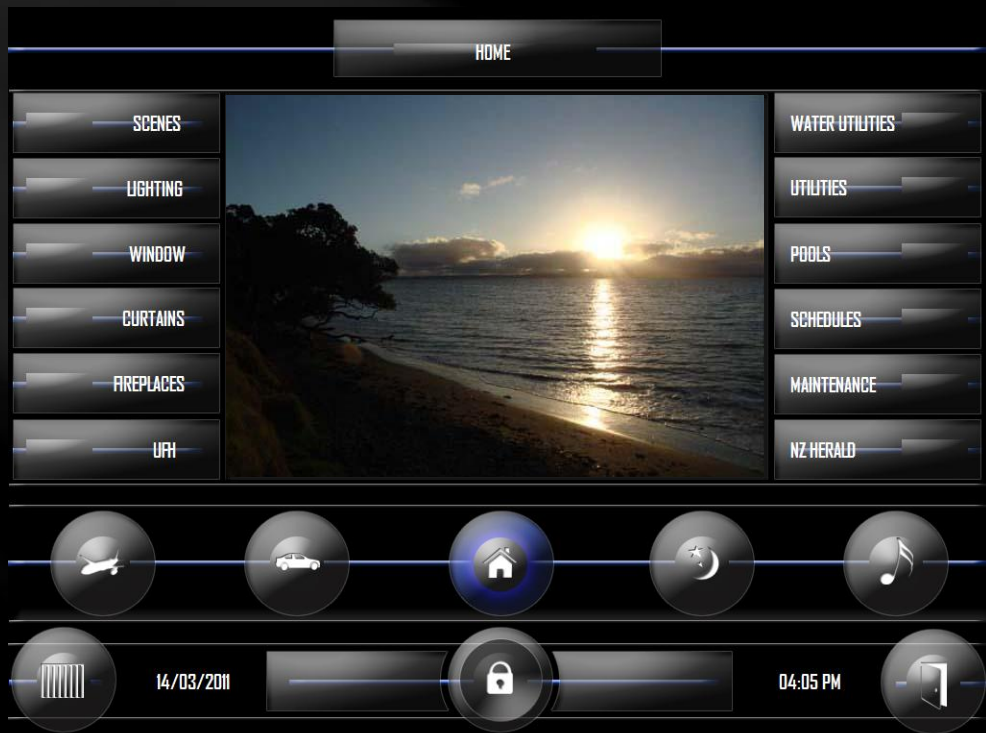

# COMMERCIAL

Can still be elegant  
and sophisticated....

# CUSTOM COMMERCIAL GRADE TOUCH-SCREENS

Sophisticated Homegate and Schedule+ based touch-screens with custom graphics and design layout add elegance with ease of use, allowing complete house control from a central location.

# MULTIROOM AUDIO INTEGRATION

Elegant and easy to use controls via the touch-screen or in-room DLT switches

# INTEGRATED SECURITY

High level two way communication providing control and feedback status of all doors, PIRs and smoke detectors.

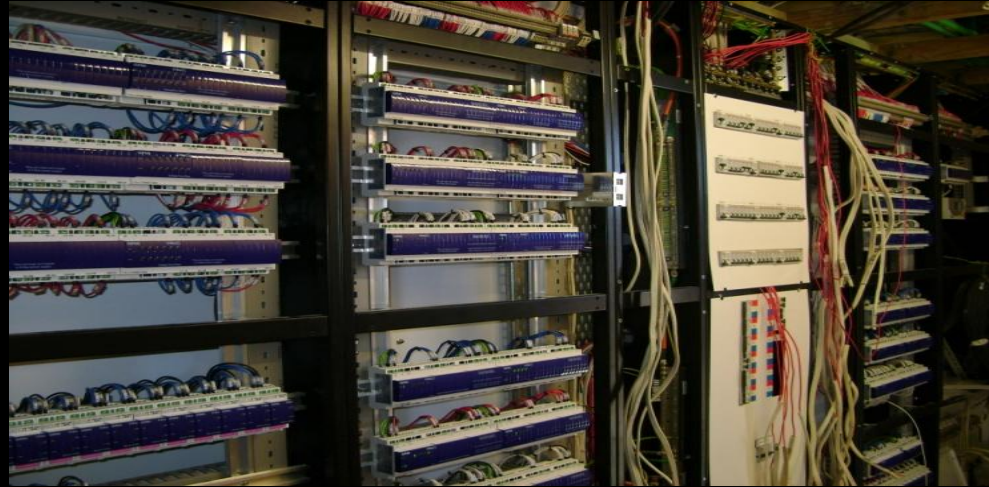

Feed-back on the touch-screen is displayed on a house plan layout showing the exact location of intrusion or fire.

# EASE OF INSTALLATION

Our systems and processes allow for a straight forward and easy site installation where working off our plans and databases is like 'Painting by Numbers'

# INTELLISYS SHOW HOME

Our fully automated show home is available for Client demonstrations.
